

Riebli Elementary School

Welcome Class of 2034!

We look forward to welcoming your student and you into our Riebli Community of learners. Kindergarten is a magical time of learning and growth. We are honored that you have chosen to look at, and potentially attend, Riebli Elementary School, where learning comes to life!

Let me begin by introducing myself! My name is Mrs. Todd and I will be your principal! I am thrilled to welcome you to the 2021-2022 school year, and I am looking forward to meeting all the new Kindergarten faces. For those of you who have not met me, I have been a principal for 11 years and this is my third year at Riebli. I love the community feel and love that happens here at Riebli. I am very excited to work together to make this a fabulous new school year!

Kindergarten students learn the building blocks of reading: Phonemic awareness, phonics, enjoying children's literature and beginning to put their own thoughts on paper. They delve into numbers, computations, and problems solving. Kindergarten is a rich and interesting place with opportunities to paint and draw, explore nature, make new friends, exercise their growing muscles, sing, dance and much more!

We encourage parents to participate alongside their students. Parents volunteer in the classroom, serve as chaperones on field trips, help teachers prepare for art projects, and offer their own skills and gifts to students. Parents can also help out on larger school projects through PTA- walk-a-thon, apparel sales, dine-out nights and more!

Please feel free to contact us or learn more about Riebli via Instagram, Facebook or call at 707-524-2980.

Sincerely,

Emily G. Todd
